

4Matrix Desktop: Update 3.9.6.0 issued on 10/10/2019

---

### New Features/Developments

#### **Edit Markbook**

- + The More Columns option now provides 'quick access' toggle for NC/Scaled Scores
- + **\*Calculate Scaled Score Conversion option now active, see separate note, below\***

#### **Gap Analysis (KS4)**

- + Major improvements to support 9-1 reporting
- + Various improvements and additions to the fields reported for most cohorts, dependant on the specific reporting requirements for each year
- + This tool will now report and match most of the fields shown in Press Release (Table View), KPI and Performance Tracking

#### **KPI (KS4)**

- + Further 9-1 support, including Science and MFL for 2018 calculation engine onwards
- + Various improvements and additions to the fields reported for most cohorts, dependant on the specific reporting requirements for each year.
- + This tool will now report and match most of the fields shown in Press Release (Table View), Gap Analysis and Performance Tracking

#### **Performance Tracking (KS4)**

- + **\*New options to view multiple cohorts for comparing performance across year groups\***
- + Further 9-1 support, including Science and MFL for 2018 calculation engine onwards
- + Various improvements and additions to the fields reported for most cohorts, dependant on the specific reporting requirements for each year
- + This tool will now report and match most of the fields shown in Press Release (Table View), Gap Analysis and KPI
- + Now uses the Series Short Name in column headers, where provided (these can be set using Edit Series)

#### **Press Release (KS4)**

- + Pupil View and Table View: Various improvements and additions to the fields reported for most cohorts, dependant on the specific reporting requirements for each year
- + This tool will now report and match most of the fields shown in Gap Analysis, KPI and Performance Tracking

#### **Progress 8**

- + **\* Added 2019 Provisional Attainment 8 Estimates. These will be applied to all 2018/19 Y11 series automatically and any new series which are created for this cohort and beyond will use these by default\***

#### **Scaled Scores**

- + **\*New option in Admin > Edit Markbook for converting Scaled Scores to Progress 8 Starting Points via the Calculate button. Conversion tool Includes link to 4Matrix study and methodology. Also see <https://www.4matrix.com/news/scaledscores>\***

- 
- Don't forget to take regular back-ups of your 4Matrix database. You can do this manually using the 4Matrix Network Manager on your server and it's possible to set this up as a scheduled task. See the [installation guide](#) for more details

### 4Matrix Desktop: Update 3.9.6.0 issued on 10/10/2019

---

#### Fixes

##### **Dashboard**

- + The average Progress 8 EBacc and Open basket entries calculation fixed
- + Will now populate correctly when using an NC Level series
- + When using key stage 5 series, the Select Series Entries figure now reports the correct number of entries

##### **Edit Pupils**

- + The Remove Pupil Photo option has been restored

##### **Group Analysis**

- + Printing an expanded Ethnicity or Research group will no longer generate an error
- + When using an NC level series, the '5 Lvl 5' columns will now populate correctly

##### **Manage Groups**

- + The pupil selection dialogue now supports multi-select via CTRL and SHIFT keys
- + The Copy Groups option now has all options set to 'Do Not Copy' by default

##### **Manage Users**

- + The Import option will no longer display an error on selecting Finish

##### **Press Release**

- + The Progress 8 Filled Slots count (the number of pupils with all 10 slots filled) now reports correctly and matches the main Progress 8 tool

##### **Pupil Display**

- + Will now populate correctly when using an NC Level series

##### **Series Comparison**

- + Fixed an issue in the Table View so that the average and total figures will always display correctly

##### **Subject Overview**

- + When a filter-row is expanded, the correct pupils will now show

##### **Transition Matrices**

- + Selecting a Scaled Score model and using KS2 APS will now detect the correct baselines
- + In Legacy view, selecting KS2 APS will now detect the correct baselines
- + In Legacy view, using an NC Level series will now work as expected

##### **Misc**

- + The Housekeeping tool will now check for series with an academic year of -1 and prompt the user to fix/remove
